Training in the proper use and care of the equipment will be provided by BCTV. Some areas of production require certification.
- 2.1.3 Use of BCTV facilities and equipment is a privilege that can be suspended or revoked if the station's policies and procedures are not adhered to, or if equipment or facilities are misused or abused. In addition, the rules of the building in which the studio is located must be abided by at all times.
- 2.1.4 BCTV reserves the right to refuse to provide access to BCTV resources to anyone who is under the influence of alcohol or drugs; who interferes with the orderly conduct of business; who refuses to cooperate with or in any way abuses BCTV staff, volunteers, or other community producers; has misused equipment; or who has abused the privileges of BCTV.
- 2.1.5 Use of BCTV facilities or equipment for personal use is prohibited and is a major violation as outlined in 2.8.0 – Violations and Penalties.

2.2.0 Use of PEG Access

- 2.2.1 Community members have the right to have a program, that they produce or endorse, broadcast at least once, provided they have met the requirements of the Statement of Compliance as described in 2.5.1 stating said program is within the guidelines set forth by the Cable Act of 1984 and does not violate these policies or any federal, state or local ordinances.

2.3.0 Statement of Non-Discrimination

- Material that has a reasonable probability of causing the substantial obstruction of law enforcement or other governmental functions or services.
- Campaign Advertising

2.5.2 “See Appendix A for producer’s/endorser’s BCTV Certificate of Compliance.”

2.6.0 Technical Standards

- 2.6.1 Minimum technical standards must be met in order for a program to be broadcast on BCTV. The technical standards are based on the premise that no program should cause viewers to think the cable channel or system is having technical difficulties. All programs should be free of the following problems:
- Interruption of the control track—Programs should be free of any break-up, glitches, or distortion of the audio or video portions of the signal.
 - Incorrect color balance—Programs should accurately reproduce original colors within the scene. Flesh tones will be the standard by which this is judged.
 - Over modulated video levels—White levels that are too high cause distortions in the audio portion of the signal. Correct exposure during taping is the best way to eliminate this.
 - Over modulated or under modulated audio levels—VU meters should consistently read between -20 dB and -1dB during playback of the program.
- 2.6.2 Technical standards may be waived in cases where the program is of an event or a happening that cannot be repeated, i.e., a one-time event. In such cases, the producer must make a special request to the Station Manager. BCTV will add a short disclaimer to the beginning of the program advising the viewers that portions of the following program may contain technical difficulties.
- 2.6.3 Although no standards exist regarding camera angles, shot composition, lighting, aesthetics, etc. the producer should always keep in mind that high production values not only increase the attractiveness of a production, but also the effectiveness. The viewer's attention span and retention of information decrease considerably in the presence of shaky camera work, poorly composed and lit scenes, or other distracting elements.

2.7.0 Commercial Use

- 2.7.1 Use of BCTV facilities or equipment exclusively for commercial use is prohibited. All programming produced with BCTV resources must be available for broadcast on BCTV meeting the requirements of the Statement of Compliance. See 2.5.0

2.8.0 Violations and Penalties

In order for the policies of BCTV to be effective, and to keep operations running smoothly, a penalty system has been instituted. There are two (2) types of violations that can result in restrictions on a community member. The Station Manager is authorized to issue warnings and suspensions of use of equipment and use of facilities.

Procedures

3.1.0 Getting Started

There are many different ways to participate in community television. You can be a producer of shows, an endorser of a program or series of programs, a volunteer, a performer, a reporter, an artist, or a viewer. The following procedures are designed to allow you to participate in community television in any or all of the above ways with as little difficulty as possible.

- 3.1.1 If interested in participating in BCTV, contact the Station Manager to arrange a meeting to discuss your ideas and plans and the procedures for getting started.
- 3.1.2 If you intend to produce yourself, or be a crew member on another producer's project, you will need to be trained on the types of equipment you will be using. See 2.1.2

3.2.0 Training

- 3.2.1 Anyone wishing to operate any equipment at BCTV must first be certified for use on that equipment or system. Certification is granted after successfully completing required training and/or passing a "hands on" test.
- 3.2.2 The following is a list of the training offered:
 - Video Camera Operation to include audio equipment
 - Studio production
 - Editing
- 3.2.3 After successfully completing/passing training, you may receive certification indicating that you are qualified to use that equipment covered in the class.
- 3.2.4 To register for training, call 603-472-8288.

3.3.0 Using Production Equipment

- 3.3.1 To avoid conflicts and insure fair usage, all equipment should be reserved for use by the producer at least forty eight (48) hours in advance. As demand increases, it will be advisable to make your reservations even earlier.
- 3.3.2 To prevent monopolization of equipment by any one producer or group of producers, reservations will not be taken more than two (2) weeks in advance. The only exception will be reservations for programs that will include footage of a scheduled event. These reservations will be taken more than two (2) weeks in advance to ensure equipment availability on that particular day.
- 3.3.3 To schedule equipment reservations, contact the BCTV staff to check availability and make your reservation request.
- 3.3.4 The producer is to arrive at the BCTV facilities at the scheduled time for pick up of equipment. If the producer is going to be late, contact the Station Manager or Assistant Station Manager. Failure to arrive on time or to contact BCTV in advance of late arrival may result in forfeiture of the reservation and is a minor violation as outlined in 2.9.2 unless there is a reasonable explanation.
- 3.3.5 The producer is to ensure the equipment is in good working order and make note of any damage or defect at the time the equipment is checked out. The producer must sign the appropriate Equipment Sign Out form.
- 3.3.6 Community members under the age of 18 will be required to have a parent or guardian sign the 'Parent Authorization Form' prior to equipment pick up.
- 3.3.7 The producer assumes full responsibility for any and all equipment that is checked out in his/her name. This personal liability includes loss or damage incurred, other than normal wear and tear, for which the producer may be charged.
- 3.3.8 To ensure equipment availability, all equipment checked out must be returned to the BCTV facility at the time specified at check out. Failure to comply is considered a minor violation described in 2.9.2.
- 3.3.9 All equipment being returned must be visually inspected and checked in by a BCTV staff member.

3.4.0 Scheduling a show

- 3.4.1 Schedule times for programs is the sole responsibility of the BCTV staff. Refer to section 2.9.7.
- 3.4.2 The BCTV system is capable of broadcasting DV, DVD, formats only. Programs on other formats must be transferred to one of these two formats prior to delivery to BCTV, in order to be broadcast to the community.
- 3.4.3 All programs submitted for broadcasting must be accurately labeled and slated with the program title, producer's name, date of production, pre-roll (PR), and total running times (TRT).
- 3.4.4 No program produced or shown at BCTV may break copyright law. This includes the use of copyrighted music, and/or TV and film clips without permission. Copyrighted material may be used only if written permission has been obtained from the copyright owner (record company, film studio, TV station, etc.) by the producer and submitted to BCTV. The use of copyrighted material under the "fair use" guidelines will be permitted.
- 3.4.5 To have a program broadcast, a producer or endorser must contact the Station Manager. The Station Manager shall make the initial determination whether the submitted program is acceptable for the BCTV schedule, or whether the proposed program should be shown during a restricted time-slot, or rejected altogether for cablecast on BCTV. All programs determined by the Station Manager to be subject to restricted time-slots or rejected altogether may be referred to the BCTV Board of Overseers for final determination of the appropriateness of the proposed program. The Station Manager makes all final scheduling decisions. The Station Manager will give all videos submitted for airing which are determined acceptable for regular rotation equal opportunity to be aired in the regular weekly schedule rotation. The Station Manager will cablecast restricted programs only during time periods designated appropriate for the restricted programs, as determined by the Board of Overseers.
- 3.4.6 All producers interested in doing any live programs must remember to book channel time as well as production equipment. Booking equipment for a certain day and time does not guarantee that channel time will be available and vice versa.
- 3.4.7 The producer's and/or endorser's signed BCTV Statement of Compliance must be on file before any program will be scheduled for broadcast.
- 3.4.8 Producers who bring in programs on their own DVD are responsible for collecting the DVD after it has finished being broadcast on the channel.
- 3.4.9 If a program on DVD not provided by BCTV is unclaimed 3 months after its last cablecast date, reasonable attempts will be made to contact the producer to come and collect the DVD. If the producer cannot be contacted, the DVD will be considered abandoned and will become the property of BCTV.
- 3.4.10 The program will be retained in the playback files as long as it is deemed timely. The Station Manager will then determine whether the program should be archived or recycled.

- 3.4.11 BCTV may schedule subsequent showings of programs beyond the playback time requested by the producer. The producer may limit additional playback.
