Paragraph #6 of the Order exempts local government because of all of the necessary functions the Town provides in support of our residents and community. We remain committed to providing a high level of service while also prioritizing the health and safety of our employees. As you will read in this update many of our services are now being conducted virtually where at all possible. Please do not come to our facilities. - ❖ **BEDFORD CARES** – A group of Bedford residents lead by Councilor Ricciardi have formed Bedford Cares to assist residents with any non-emergency needs such as shopping for food or medicine or anything you might need and are also supporting our first responders with sanitizer and other supplies. They have also teamed up with the Bedford Food Pantry to support their efforts which continue to grow. If

you are in need of their help or you want to assist in the effort please contact them on Facebook at <https://www.facebook.com/BedfordNHCares/> or by calling at (603) 792-1319.

- ❖ **BEAUTIFY BEDFORD** – The Bedford Energy Commission, The Department of Public Works, and many residents organized by former Councilor Rombeau have started a grassroots effort to clean up Bedford during this unique time. This is a great way to show community spirit and to get out of the house while also maintaining social distances and we thank the community for wanting to take this on. Please be safe along the road and where gloves and reflective or bright colored clothing. The Energy Commission has created [a map](#) where you can sign up for an area or register an area you have already completed.

- ❖ **PUBLIC MEETINGS WILL GO ON** – The Governor has provided for public meetings to continue during the Stay at Home Order by allowing the board or commission members to be present over the phone or virtually and allowing the public to listen to the meeting over the phone. We do expect our Council, Planning Board, ZBA, and other meetings in April to be completed in this virtual manner using a video and phone conferencing platform called [Zoom](#).
