PLAN REVIEW FEES

Review fees are due upon submission of application. Review fees are required for all new dwellings, new commercial structures, residential additions / major remodels (of the occupied space) or major commercial remodels / change of use group. These fees do not apply to applications for sheds, swimming pools, decks, minor tenant fit ups under 10,000 sq ft and similar types of applications.

1 & 2 family\$ 50.00 per unit
 All other Use Groups.....\$150.00 per building

Once approval is granted for a permit and a major plan change occurs (more than 25% of the building area affected) the revision will incur an additional review fee and may require an adjustment to the permit fee for the project.

BUILDING PERMIT RENEWAL

This would become effective only if no inspections are requested within 180 days after the permit issued or more than 180 days pass between inspections.

1st Renewal 25% of original fee
 2nd and subsequent Renewals 50% of original fee

NOTE: Permit renewals must be requested in writing and just cause shown for the extension request. The extension fees must be paid prior to inspection requests for expired permits.

Where permits have been previously renewed twice or are expired for more than 360 days, the permit holder will be required to secure a new permit. Where new permits are required, portions of the original work not having received an approved inspection may be subject to code changes that may have occurred after the original plan review.
